

2017 3R Ambassadors participating in a water quality test

The Solid Waste Authority of Palm Beach County is looking for students to participate in a one-week *Reduce,*

*Reuse, Recycle and ReThink* adventure into the world of waste. During this week, students will engage in hands-on activities and labs focusing on the environment from an integrated solid waste management perspective.

After all participants learn about AWAY, they will graduate as an official SWA 3R Ambassador and be encouraged to teach their family and friends how their waste can affect our environment.

# Annual Ambassador Summer Program

June 3-7, 2019 from 9 a.m. - 4 p.m.

## Participant Requirements

Students interested in the 3R Ambassador Summer Program must meet the following criteria:

- Completed grades 6, 7 or 8
- 3.0 GPA (transcript from school)
- Membership in a school club (Environmental, SECME, Garden, etc.) and letter from its sponsor
- Science teacher's recommendation in the form of a letter

## How To Apply

The cost to participate in the 3R Ambassador Summer Program is an old electronic device, which will be recycled.
