2020 Annual Hurricane Debris Preparedness Management Meeting Cancelled

Due to the Covid-19 Pandemic and the need to comply with Emergency Orders that restrict large public gatherings, the Solid Waste Authority of Palm Beach County is cancelling its upcoming *Annual Hurricane Debris Preparedness Management Meeting* scheduled for Wednesday, May 13, 2020.

The SWA will replace the *SWA 2020 Annual Hurricane Debris Preparedness Management Meeting* with a PowerPoint presentation link on its Debris Management Meeting webpage. This will provide each municipal and special district partner the opportunity to receive any and all SWA and/or FEMA changes and updates. The SWA will provide for each partner the opportunity to email questions for a response.

The plan is to have this link on the SWA Debris Management Meeting webpage (www.swa.org/154/Debris-Management-Meeting) the morning of May 13.
