

Virtual ReTeach Waste Summer Program

July 12 - 16, 2021, 9 a.m. - 1 p.m.

PBC educators, get an environmental edge! The Solid Waste Authority of Palm Beach County is hosting a weeklong virtual continuing education program focused on solid waste issues and techniques to teach them to students. During the week, educators in Palm Beach County will take interactive behind-the-scenes tours from the comfort of their computers and participate in educational workshops online.

Sessions will be from 9 a.m. to 1 p.m. every day.

At the end of the week, participants will receive a program certificate and curriculum guides filled with lessons and activities that meet many of the national and state standards.

Participant Requirements

Educators interested in the ReTeach Waste Program should meet the following criteria:

- Educator in Palm Beach County
- Science, technology, engineering or math focus
- Teach third grade or above

How To Apply

All interested applicants must fill out an online application by June 25, 2021.

Visit SWA.org/ReTeach to learn more and access the online application.

The cost to participate in the ReTeach Waste Summer Program is an old electronic device, which will be recycled.
